Overview

Vi-Link HD SDI Video equipment: The DL415 is a fiber optic digital multiplexer that designed to transmit up to 4 channels of high quality uncompressed digital 3G HD SDI video signals and Bi-directional EIA-RS232 or RS-422 Data over one single mode cable. It is a cost effective selection for transporting high quality SDI camera pictures and traffic control or sensor data from the remote locations back to the operation center via long fiber optic cable.

The DL415 is compatible with all SMPTE rates: SMPTE259M SDI from 143 to 360 Mbps, SMPTE344M 540MbpS, SMPTE292M HD-SDI 1.485 Gbps, SMPTE372M Dual Link HD-SDI 2.97 Gbps, SMPTE424M Dual Speed 3G-SDI 2.97 Gbps.

The DL415 offers a fully serial digital video encoding/decoding of real time high quality digital video providing adjustment free operation over a wide operational range. Using automatic gain control and state-of-the-art multiplexing, combining with CWDM technologies for distances from back-to-back to 50 Kilometers, our digital signaling offers superior receiver output stability, which is unaffected by changes in fiber path attenuation due to aging or splicing points.

The extended temperature capability of the DL415 satisfies very critical applications requiring high quality video performance with high reliability.

Features

- 4 Channels Digital Broadcast Video Transmission
- 4 Channels Bi-Directional Data
- Single Mode Fiber With CWDM Technology
- Real Time High Quality 3G-HD-SDI Video
- Compatible with all SMPTE3G SDI Rates
  - SMPTE259M SDI from 143 to 360 Mbps, SMPTE344M 540Mbps
  - SMPTE292M HD-SDI 1.485 Gbps, SMPTE372M
  - SMPTE424M Dual Link HD-SDI 2.97 Gbps
- Fully Compliant with EIA RS-232/RS-422 standard
- Asynchronous Data Speed Up to 115 Kbps
- 90~240 VAC or +24 VDC, +28 VDC, -48 VDC
- NEMA Temperature

Applications

- Broadcasting Video Transmission
- High Quality HD-SDI Video Monitoring in Traffic Control Center
- METRO Security System
- Unmanned Aircraft Video System
- Oil & Gas Perimeter Intruder Detection
- Military Applications
- Premise Networks
- Any High Quality Video Requirement

*** Replace 23 with 22 for RS-422 Interface ***
Specifications

System:
- Error Rate: 1 in 10^12 or Better
- Indicators: PWR, CH1..CH4

Optical:
- Transmitter: CWDM Lasers
- Tx: 1470nm~1570nm
- Rx: 1570nm
- Receiver: PIN
- Tx: 1470nm
- Rx: 1470nm~1570nm
- Power Budget: 20 dB @ SM
- Connector: ST

Environment:
- Operating: -34°C to +74°C
- Storage: -40°C to + 95°C
- Humidity: 98% Non-Condensing

Physical:
- Dimensions: 19" x 10" x 1.75"
- Weight: 7 lbs

3G HD-SDI Video Interface:
- Channel: 4 x 3G HD-SDI
- Format: SMPTE 259M, 292M and 424M
- Speed: 143M~540M, 1.485GB~2.97 GB
- Full HD Revolution: 1280 x 720P @ 50/60fps
  1920 x 1080P @ 50/60fps
- Signal Level: 800mVp-p +/-10%
- Connector: BNC
- Impedance: 75 Ohms

Bi-Directional Data:
- Channel: 4
- Speed: DC to 115 Kbps
- Format: RS-232 / RS-422
- Connector: RJ45

Power:
- AC: 90~240 VAC @ 0.5Amp 50/60Hz
- DC: +24 VDC, +28VDC, -48 VDC

Application
