The VL64D is a reliable high quality low cost fiber optic uncompressed digital video Transmitter/Receiver for transmitting/receiving 64 channels of video over one single mode or multimode fiber optic cable.

The VL64D uncompressed video is compatible with NTSC Medium Haul standards (RS-250C) and other video formats such as PAL, CCIR and C-Cam standards. The PTZ data is compliance with IEA Standard RS-232, RS-422 and RS485 interfaces.

The VL64D offers a fully digital 8 bits encoding/decoding of uncompressed real time video providing adjustment free operation over a wide operational range. Using AGC techniques for distances from back-to-back to 50 Kilometers, our digital signaling offers superior receiver output stability, which is unaffected by changes in fiber path attenuation due to aging or splicing points.

The extended temperature capability of the VL64D satisfies very critical applications requiring high quality video performance with high reliability.

### Features

- Real Time Digital Video Transmission
- 8 Bits Digital Encoding/Decoding
- NTSC Medium Haul Performance (RS-250C)
- International PAL Standards/CCIR Formats
- PTZ Camera Data (EIA-RS-485)
- AGC Single Mode Transmission of 0 to 50 Km
- Extended Temperature Range

### Applications

- City and Highway Monitoring System
- Metro & Railroad Monitoring System
- Oil & Gas Pipeline Monitoring
- Airport Security System
- Long Distance CCTV with PTZ
- Homeland Security
- Utility System
- Military Security Applications
- Premise Networks
- Any High Quality Video Requirement

### Order Information

Specifications

System:
- Error Rate: 1 in 10^12 or Better
- Indicators: PWR, Link

Optical:
- Transmitter: Lasers
- Receiver: PIN
- Wavelength: 1310/1550 nm
- Power Budget: 20 dB @ SM
- Connector: ST, SC, SFP

Environment:
- Operating: -34°F to +74°F
- Storage: -40°C to + 95°C
- Humidity: 98% Non-Condensing

Power:
- TX/RX: 90~240 VAC @ 2 Amp

Physical:
- Dimensions: 19" x 5.1" x 10.0"
- Weight: 12 lbs

Video Interface:
- Channel: 64
- Format: NTSC, PAL, RS-250C, CCIR
- Signal Level: 1 Vp-p
- Impedance: 75 Ohms
- Video Digitization: 8 Bits, 14 Mega Samples
- Bandwidth: 8 Mhz
- Differential Gain: < 1.0%
- Differential Phase: < 0.6°
- Signal/Noise Ratio: > 65 dB (Weighted)
- Connector: BNC

PTZ Data Interface:
- Channel: 4
- Type: PTZ Control
- Speed: DC to 115 Kbps
- Format: RS-232 / RS-422 / RS-485
- Connector: RJ45

Application

Analog PTZ Cameras

Analog Video Monitor

Up to 50 Km SM Fiber
